

Digital Skills

A free 6 week course learning IT basics

Digital skills are an essential part of daily living. You will be given the opportunity to develop the digital skills needed for everyday life. You will learn:

- Basic tablet/smartphone skills
- To communicate with others using email
- To share photos with friends and family using email
- To communicate with others using video calls
- To search for information
- To buy goods or services
- To access public services
- To find out how to do tasks using tutorial videos
- To stay safe and legal online
